Choose Performance That Lasts

The Bush Hog® brand means superior performance now and for years to come. It was born more than 60 years ago with the famous Bush Hog® rotary cutters. From the very beginning, Bush Hog® TOUGH features were built into these machines. Many Bush Hog® mowers built 30 years ago are still on the job.

Available Accessories**

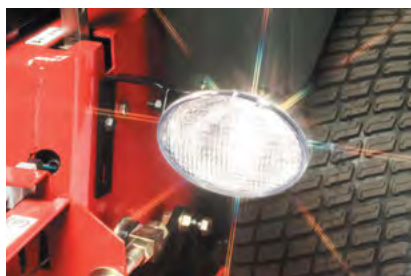

GRASS MULCHING KIT

Under-deck, bolt-on baffles capture grass clippings so specially designed mulching blades can shred them into a fine, lawn-feeding mulch.

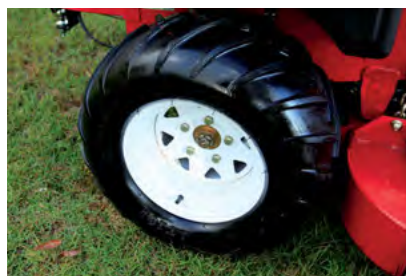

ANTI-SCALPING ROLLER

Additional anti-scalp protection on discharge side is provided by this easily bolted-on roller. Recommended for use with mulching kit.

WORKING LIGHTS

Halogen headlights are easily angled from the operator's seat and throw plenty of light for after hours mowing.

BAR TIRES

Specially designed for maximum traction on hilly terrain or red clay and mud.

TRAILER HITCH KIT

Easily bolts-on to enable you to tow a utility trailer or other tools and attachments.

MULCHING BLADE

CANOPY (not pictured)

Our white canopy mounts directly to the roll bar (ROPS tube) to provide shade, comfort, and protection from harmful UV rays.

POWER DECK LIFT (not pictured)

Electronically raises or lowers the mowing deck to your chosen cutting height. (Available on Professional Series only)

**Accessories differ by model. See dealer for complete details.
